■ Crystal Pools' philosophy is to pursue "quality without compromise". Since its establishment in 1957, the company has won more than 120 major state, national and international pool awards.

POOL TECHNOLOGY

Host of awards mean crystal-clear rewards

CRYSTAL Pools is one of Australia's longest operating and most experienced pool builders, being in business for almost 60 years.

Crystal Pools sales and marketing manager Andrew Rothery says people understand that a well-crafted pool adds value to the home.

"We have built a reputation in the industry and wider community by ensuring that our pools are always well thought-out

and visually stunning," Mr Rothery said.

Crystal designs pools for all sites, residential and commercial, as well as special plunge pools for small yards.

The company's residential installations are mainly built in the greater Sydney metropolitan area, while commercial-sized works are carried out around the country.

"Over the decades Crystal has experimented with other construction technologies yet remains convinced

concrete in-ground pools are vastly superior to any other construction method available," Mr Rothery said.

"Both aesthetically and functionally, Crystal Pools are known as those that stand the test of time.

"And from day one of use, a Crystal pool is one that looks fabulous and architecturally functional for the home and its occupants."

Since its establishment in 1957 Crystal has won more than 120 major state,

national and international pool awards.

For the past three years Crystal Pools has won a host of major awards at the NSW Master Builders Association (MBA) Awards for both its residential and commercial work.

It is a long-standing member of the MBA, the Housing Industry Association and the National Swimming Pool Institute.
